At a meeting of the Legislative Council on the 24th June, the Hon. F. B. This question, a very-simple one to answer, was evaded in a most unjustifiable manner, but His Excellency the Governor, keeping the figures carefully out of view, thus ondeayoured to make out his case :-- "Sir RICHARD "MACDONNELL adopted the expedient of dis-"charging prisoners from gaol after serving "one-third, one-fourth, one-fifth, or ever one-twentieth of their sentence. THINA SUGAR REFINING COMPAN. LIMITED.

The fourth ordinary annual meeting of th above Company was hold at the office of th general agents, Masses, Jardine, Matheson, & yesterday afternoon. There were present-Hou F. B. The CHAIRMAN said - Contlemen, the repor and accounts for 1881 have now been in your hands for some lays, and I trust the account that has been given of our stewardship has been found satisfactory by you. I can inform the share holders that the quantity of sugar put through the East Point Refinery during the past year has been about 60,000 piculs greater than during the previous year, and it is also satisfactory to see that the working expenses have shown no inconsiderable reduction. I am also glad to in- from shrimp boats which they would not be able orm the shareholders that the anticipations that were expressed by my predecessor in this chair at the last annual meeting of the Company, to the effect that the Swatow Refinery would be an important adjunct to the business, has been confirmed by actual experience, and that the Company possesses in the patents's very valu able privilege. The General Agents, with the concurrence of the Consulting Committee, as we have stated on the report, have taken steps which I think will very favourably influence the working for the future, by moving the patents hitherto at work at Wanchai partly to Swatow and partly to East Point, thus centralising the establishments, lessening the cost of superintendence and coolin hire, and placing at the disposal of the Company a surplus piece of land which will, I hope, at no distant date cover the expenses which have been inourred. The working account shows a marked increase in its profit over that of last year, but Khiva, from England, which arrived last evening, England, over twenty years ago. We are awaiting that report with great interest, and I need not say any improvements it may suggest in the working of our refineries will at once be takenadvantage of. During Mr. Dinkie's absence the general agents have every reason to be satisfiel with the care bes wed upon the work by Mr. Hyndman and his condittor Mr. Roger.
